HYBRID SWIM LESSONS

Our swim lesson program takes the most important skills and benefits of the nation's top swim curriculums and combines them into our own hybrid system. Our aim is to limit gaps and provide the strongest, safest, and most thorough lessons for your child.

SWIM SKILL EVALUATIONS

You want to ensure your child is enrolled in a class level that is appropriate for their current skills, and will allow them to grow their skills as they become more comfortable in the water. All swim lessons will now begin with a skill evaluation by our instructors, after which students will be grouped into classes according to skill level.

Choose the date and time that works for you. The first lesson is a swim skill evaluation, after which students are assigned to the proper level and begin working with their instructor to build their skills.
